

Advance Directive **Short Form** vs. Advance Directive **Toolkit**

Advance Directive Short Form

A **short** version of an advance directive if you're ready to name a decision-maker but not ready to choose preferred treatment options.

Can be completed in moments.

Advance Directive Toolkit

A **full-length** advance directive that guides you in naming decision-makers, choosing care options through serious illness and the end of life, and completing the form. **To be completed in consultation with loved ones, your decision-makers and providers.**

	AD Short Form	AD Toolkit
For patients ready to name a health care representative (DPOA-H)	✓	✓
For patients ready to think through and select treatment preferences (Living Will)		✓
For patients to complete in clinic, emergency departments, waiting rooms	✓	
Requires state-specific signature and witnessing/notary to complete	✓	✓
Is a legal advance directive that satisfies PSJH advance directive metrics	✓	✓

Examples

Fill out the short form before surgery, in the hospital, or during clinic visits.

Take the toolkit home; complete at your own pace.
